

Get to Know Climate Lead

From the air we breathe to the natural environments that sustain us, climate touches every aspect of our world. The climate crisis magnifies existing global challenges and social inequities and intensifies the struggles faced by vulnerable communities. But there is still time to chart a different path if we act now.

At Climate Lead, we believe that philanthropy can radically reshape climate outcomes and improve lives.

Who We Are

Climate Lead empowers philanthropic leaders everywhere to take immediate and far-reaching climate action. By serving as an impartial and trusted guide, Climate Lead equips new climate philanthropists and their staff with the information and insights they need to drive transformative solutions. We cut through the complexity by curating roadmaps, in partnership with a diverse network of experts, to help you make **a bold impact on climate from day one.**

We have catalyzed more than \$6 billion into high-impact climate solutions.

What We Do

Climate Lead offers specialized services—free of charge—to help new climate philanthropists move from curiosity to confident action.

These include:

- One-on-one advising
- Curated portfolios of solutions that have been evaluated for impact and match your priorities
- Connections to a diverse, global network of climate experts and peer philanthropists
- Learning opportunities and resources

Climate Lead Advantage

Climate Lead guides donors toward urgent and high-impact climate giving. Our approach provides:

Specialized Expertise—We translate credible and current insights from a global, diverse network of climate experts and leaders to help you deepen your climate learning and make informed choices that create tangible impact.

Trusted and Impartial Advice—We offer our services free of charge, prioritizing your interests and climate impact above all.

Networked Community—We connect you to a built-in global community of advisors, field partners, experienced climate philanthropists, and other luminaries who are interested in maximizing impact through partnership and collective action.

Tailored Support—We meet you where you are and provide holistic support along every step of your climate journey.
